

Serafin Otadoy Gargantiel III.

773 (336)-1153 · gargantielserafin@gmail.com · linkedin.com/in/serafingargantieliii/ · iamserafinnn.github.io/ · github.com/iamSerafinnn

EDUCATION

B.S., Computer Science | University of Illinois at Chicago (UIC)

GPA: 3.42 · Dean's List (Spring & Fall 2023)

August 2022 – May 2026

TECHNICAL SKILLS

Languages: C++, Python, Java/JavaScript, SQL, HTML/CSS, React

Tools: Visual Studios Code, GitHub Version Control, Linux-Commands, Claude Anthropic (AI), Jupyter Notebook

EXPERIENCE

Part-Time Lab Research | UIC Wearable Technology and Enhancement Sensory Lab (WTSE)

May 2026 – Current

- Developing React UI for a BLE-connected intra-oral wearable device streaming real-time physiological sensor data
- Collaborating with engineers on hardware data flow, frontend integration, and UI/UX for research participant workflows

Entry Level Sales Representative | Business Kratos Executives

May 2026 – Current

- Conduct in-person retail sales visits and remote outreach in a hybrid role, engaging customers to drive product interest and conversions

CyberSecurity CodePath Course | CodePath

February 2026 – May 2026

- Investigated a simulated brute-force attack using Splunk SIEM, querying log data to identify malicious IPs and attack vectors
- Documented incident response procedures using Catalyst under the NIST SP 800-61 framework, producing CSIRT-ready reports

Python/SQL Backend Development | UIC SparkHacks Hackathon

February 2025

- Built backend logic for a chatbot using Python and SQL, implementing query matching to retrieve the closest relevant response to user prompts
- Designed and queried a relational database to support real-time natural language lookups in a time-constrained hackathon setting

Data Analytics and Wrangling Program | Global Accelerator Program

August 2024 – November 2024

- Completed data analytics projects using Python (pandas), MySQL, Tableau, and Jupyter Notebook in a remote, collaborative program
- Cleaned, transformed, and visualized datasets to surface actionable insights across multiple project-based assignments

PROJECTS

Inventory Management Platform for Crafters | React.js · UI/UX Design · HTML/CSS Styling

February 2026 – May 2026

- Collaborated in a team of 5 to design and deploy a React web app for crafters to organize materials and projects in a structured inventory system
- Applied UI/UX best practices to build an intuitive, responsive interface tailored to crafter workflows and deployed to production via GitHub Pages

Make Or Break - Building and Physics Simulator | Unity · JavaScript · 3D Programming

January 2026 – May 2026

- Co-developed a disaster physics simulator in a team of 4, featuring prebuilt structures stress-tested against tornadoes, tsunamis, and a black hole
- Personally implemented environment exploration, modular building blocks, and the earthquake and tornado disaster mechanics

Personal Portfolio Website | HTML/CSS · Web Development · UI/UX Design

December 2025 – January 2026

- Built a personal portfolio site showcasing projects, experience, certifications, and athletics with a tabbed layout and toggleable project cards
- Implemented responsive design, custom navigation, and iterative UI improvements for a clean, accessible user experience

Wild Realms Immersive Wildlife Simulator | React · Three.js · 3D Programming

September 2025 – December 2025

- Built a 3D interactive environment in a team of 4, contributing a tundra and desert biome for users to explore and discover 5 hidden animals.
- Leveraged Three.js to render immersive 3D scenes with navigable terrain and spatially placed interactive wildlife elements

INVOLVEMENTS

Semi-Professional Soccer | Berber City FC (UPSL Premier Division) / Machu Picchu FC (GCSL Major Division)

March 2026 – Current

- Played competitive soccer on two semi-pro rosters; balancing 3 training sessions with weekend games alongside engineering work

Student Organizations | Filipinos In Alliance (FIA) / Society of Professional Hispanic Engineers (SHPE)

March 2024 – May 2026

- SHPE student member networking with engineers and companies; SHPE National Convention 2025 (Academic Olympiad)
- FIA student member participating in stage performing and athletics; Athletics Student Board Intern at FIA (Jan–Apr 2025)

Summer Bio-Engineering Study Abroad | Entrepreneurship and Wearable Technology In Europe

July 2025

- Traveled to London and Milan visiting 6+ wearable tech and biomedical companies gaining exposure to European startup ecosystems
- Attended London Tech Week 2025, engaging with founders and engineers across AI, hardware, and wearable technology sectors

CERTIFICATIONS & AWARDS

CodePath Intermediate CyberSecurity (May 2026) · SQL Specialist (Oct 2024) · Python Specialist (Dec 2024) · Intercultural Skills (Dec 2024) · Intel Sustainability Data Analysis (Nov 2024) · GRAMMY's Audience Analysis (Dec 2024) · Coding for Data Track (Dec 2024)
